

PORTABLE PRESSURISED SHOWER & EYEWASH STATION 90L

THE PRATT SE593A PORTABLE PRESSURISED SHOWER & EYEWASH STATION IS DESIGNED AS AN INTERIM EMERGENCY RESPONSE SOLUTION FOR REMOTE OR TEMPORARY ENVIRONMENTS WHERE PLUMBED WATER SUPPLY IS UNAVAILABLE.

The unit provides independent shower and eyewash activation within a self-contained pressurised stainless steel system.

FEATURES:

- 90L operating water capacity
- 304 stainless steel pressure vessel
- Independent shower and eyewash activation
- Twin low-flow eyewash spray nozzles with dust caps
- Multi-directional shower spray head
- Stay-open push handle ball valves
- Pressurised operation (690–700 kPa)
- Pressure gauge
- Pressure relief valve
- Schrader type air filler valve
- Twin carry handles (for handling when empty)

APPLICATIONS:

- Remote industrial sites
- Mining & exploration
- Construction projects
- Temporary hazardous work zones
- Maintenance shutdowns

SPECIFICATIONS:

Rated Cylinder Capacity:	106L
Operating Water Capacity:	90L
Charge Pressure:	690–700 kPa (100 PSI)
Eyewash Duration:	Minimum 15 minutes flushing when tank is full when using eyewash
Shower Duration:	Approx. 5–7 minutes when tank is full
Construction:	304 stainless steel cylinder and fittings
Dry Weight:	Approx. 35.5 kg
Filled Weight:	Approx. 125.5 kg
Fluid Requirement:	Clean drinking water
Charge Medium:	Clean filtered compressed air or nitrogen

ACCESSORIES:

- PS593TC** Thermal Insulating Cover
 - SETESTTAG** Test tags
- Replacement spare parts available

COMPLIANCE:

- Eyewash complies with AS4775
- Shower function is designed as an interim emergency response solution
- This unit does not deliver 76 LPM for 15 minutes as required for permanently plumbed safety showers under AS4775

IMPORTANT INFORMATION:

- Designed for temporary or remote use
- Not intended to replace permanently plumbed safety showers
- Do not use water additives
- Refer to Installation, Operation & Maintenance Manual for full instructions
