

PRATT SHOWER & EYE WASH TEST KIT

FEATURES:

- Easy-to-use Shower & Eye Wash Test Kit allows for regular testing and maintenance of equipment in-house.
- Provides the necessary equipment to perform most of the main tests and checks required, in order to comply with AS4775.
- Ensure equipment is correctly tested and maintained to ensure the correct operation at all times.
- The kit allows for both Showers & Eye Wash Stations to be measured for Flow Rate, Flush Testing and Water Pattern Testing.
- SETESTKIT includes:
 - 120L wheelie bin with sight gauge, calibrated to 5L increments and drainage valve
 - Shower test sock
 - Shower pattern test gauge
 - Eyewash pattern test gauge
 - Plastic document holder
 - Eyewash aerator removal key
 - Set of Checklist and instruction documents
 - 20L plastic receptacle
 - 10L low profile plastic tray
 - Flexible hose to connect to waste outlet
 - Pkt 10 weatherproof test tags
- All components can be repacked into the wheelie bin for storage.

SETESTKIT

NOTE:

- The kit does not include a pressure test gauge.
- The Pratt Test Sock and Receptacle Kit can be ordered separately (Part No: SE950). This component is included as standard in the SETESTKIT.
