- All signs have rounded corners and a mounting hole in each corner.
- Signs can be mounted flush against a wall or similar.
- Otherwise the signs can be mounted onto a shower or eyewash where possible.
- Pratt offer a selection of sign mounting brackets which can attach to a shower or eyewash stanchion. Refer to nextpage.

Safety Shower Mounting Brackets for Signs and Accessories

Pratt Safety Shower Mounting Brackets made of 3mm thick 316 stainless steel bar. These brackets provide a sturdy fixture for displaying Emergency Signage or for mounting ancillary alarm components or other equipment.

The mounting brackets include 316 stainless steel locking bolts and nuts. The brackets will fit most models of stanchion type safety showers and provide long lasting durability in outdoor applications. All brackets are designed to clamp around the shower stanchion, in any position and secured by tightening the bolts.

When mounting the signs to the brackets, the signs will require the drilling of additional holes for inserting the securing bolts.
