

## SAFETY SHOWER MOUNTING BRACKETS FOR SIGNS & ACCESSORIES

Shower Mounting Brackets made of 3mm thick 316 stainless steel bar. These new brackets provide a sturdy fixture for displaying Emergency Signage or for mounting ancillary alarm components.

The mounting brackets include 316 stainless steel locking bolts and nuts. The brackets will fit most models of stanchion type safety showers and provide long lasting durability in outdoor applications.

All brackets are designed to clamp around the shower stanchion, in any position and secured by tightening the bolts.

### PSSMB1 SIGN MOUNTING BRACKET

Total Length of Bracket: 170mm
