

# PRATT GAS CYLINDER STORAGE CAGES: 2 DOORS - 2 SHELVES

PRATT Gas Cylinder Storage Cages provide a secure and practical solution for the storage of industrial gas cylinders in commercial and industrial workplaces. Available in a range of sizes and configurations, the range accommodates up to 18 G-size industrial gas cylinders, including A combination storage option for both gas & forklift storage.

## FEATURES & BENEFITS:

- Suitable for the storage of industrial gas cylinders including oxygen, nitrogen, argon, carbon dioxide and similar cylinder types
- Heavy-duty steel construction
- Yellow powder coated finish for durability and visibility
- Welded steel mesh panels for ventilation and product visibility
- Solid steel roof and floor
- Secure lockable door design
- Raised support legs with pre-drilled mounting feet
- Strong magnetic door catches with padlock eye
- Forklift movable when empty for relocation purposes
- Supplied with restraining chains for securing cylinders
- Available in flat-pack and assembled configurations
- Designed to encourage safe storage and good housekeeping practices
